

SHORT TERM HEALTH CONSULTANT REQUIRED FOR HEALTH FACILITY ASSESSMENT PUNJAB

Background:

The Policy and Strategic Planning Unit (PSPU), Primary & Secondary Healthcare Department, Government of Punjab through assistance of World Bank is implementing the Punjab Health Sector Reform Program (PHSRP). Health Facility Assessment (HFA) is one of the codal requirement of the project to assess the readiness of health facilities and community based workers for delivery of Essential Package of Health Services. In this context, a consulting firm will be hired for Survey/Data collection and report writing for HFA.

Now PSPU intends to hire the services of a short term individual consultant to design and plan for undertaking Health Facility Assessment (HFA) on SARA methodology developed by World Health Organization (WHO).

Job Description & Deliverables of Individual Consultant:

The individual consultant will be key technical resource person responsible for:

- Inception report, including methodology, sampling, monitoring plan for fieldwork.
- Designing sampling strategy by adapting SARA indicators in the local context
- Developing questionnaire for data collection.
- Review data collection tools and methodology.
- Developing training manuals for field teams/data collectors.
- Training of master trainers.
- Exercising the quality assurance checks.
- Validation of collected data and data analysis.
- Draft report formats and validation of final report of the consulting firm.

Selection Criteria:

The successful candidate will be a senior professional with solid experience in public health sector at national and international level. Candidate will be selected on the basis of the following competencies:

Qualification & Experience:

- Postgraduate Research degree in Public Health after MBBS from a recognized university; additional specialized qualification in survey design and implementation will be preferred.
- Minimum 10 years' experience in research and surveys focusing on Health sector.
- Should have a good knowledge and recognized experience of surveys design, sampling, questionnaire development and trainings.
- Previous experience of SARA or HFA will be preferred.

- A good working knowledge of data analysis software(s)
- Excellent analytical and professional report writing skills with proven experience
- Ability to lead the team and facilitate technical meetings.

The PSPU intends to invite eligible candidates to submit their CVs demonstrating that they have the required qualifications/competencies and relevant experience to perform the required services.

A Consultant will be selected in accordance with the Selection and employment of consultants under IBRD loans and IDA credits & grants by World Bank borrowers, revised July 2014.
